

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

<i>ABDOMEN</i> , Account of the Success of some Experiments of injecting Claret, &c. thereinto after Tapping	Page 485
<i>Acorus</i> , True, Account of that Plant	827
<i>Actions of Jupiter and Saturn</i> , the Irregularities of the annual Motion of the Earth occasioned by them	737
<i>Action of the Sun</i> , Force thereof on the Equatorial Parts of the Earth	704
— on the mean Precession of the Equinoxes	709
<i>Action of unslacked Lime</i> , on volatile alkaline Salt	222
<i>Adder's Tongue</i> , Account of that Plant	853
<i>Adee</i> , Swithin, M. D. two Letters from him concerning the Agitation of the Waters on the 1st of Nov. 1755, at Guildford, in Surry	357
<i>Adrianople</i> , Account of a violent Earthquake there	116
<i>Adriatic Sea</i> , Essay towards a natural History thereof	585
<i>Aetna</i> , an Account of a late Eruption thereof	209
<i>Affleck</i> (Capt.) his Account of the Agitation of the Sea at Antigua on the 1st of Nov. 1755	668
	<i>Agaric</i>

I N D E X.

<i>Agaric of the Oak</i> , Account of that Species of Plant from which the Styptic, so called, is prepared	28
Effects thereof, after some of the most capital Operations in Surgery	36, 93, 264
<i>Agitation of the Waters</i> , at <i>Antigua</i> , on the 1st of Nov. 1755	668
at <i>Chevening</i> , in <i>Kent</i>	360
at <i>Cranbrook</i> , in <i>Kent</i>	<i>ibid.</i>
in <i>Cumberland</i>	381
at <i>Dartmouth</i>	643
in <i>Devonshire</i> and <i>Cornwall</i>	371
near <i>Durham</i>	385
in the <i>Firth of Forth</i> in <i>Scotland</i>	550
at the <i>Hague</i> , in <i>Holland</i>	396
at <i>Hamburg</i>	550
at <i>Hunston</i> , in <i>Norfolk</i>	380
at <i>Kingsale</i> , in <i>Ireland</i>	391, 393
at <i>Leyden</i>	397
at <i>Loch Lommond</i> , in <i>Scotland</i>	389
at <i>Loch Ness</i> , in <i>Scotland</i>	387
in <i>Peerless Pool</i> , in <i>Old-street</i>	362
at <i>Portsmouth</i>	351
near <i>Reading</i> , in <i>Berkshire</i>	365, 367
at <i>Rochford</i> , in <i>Essex</i>	364
at <i>Sbirburn Castle</i> , in <i>Oxfordshire</i>	368
in <i>Sussex</i> , and the Southern Parts of <i>Surry</i>	353
at <i>Swansey</i>	379
in the <i>Thames</i> , near <i>Rotherhithe</i>	361
at <i>Tarmouth</i>	380
in several Ponds in <i>Hertfordshire</i>	684
at <i>Ildfarcombe</i> , in <i>Devonshire</i>	642
in the <i>Lake Ontario</i> , in <i>North America</i>	544
<i>Air, fresh</i> , the Benefit of blowing Showers thereof up through distilling Liquors	312
Thoughts on the above new Method of Distillation	534
<i>Alcaline volatile Salt</i> , the Effects of unslacked Lime thereon	222
<i>Alder</i> ,	

I N D E X.

<i>Alder, the Blackberry-bearing,</i> Account of that Plant	819
<i>Aleppo,</i> an Account of four undescribed Fishes found near that Place	445
<i>Aleppo,</i> its Latitude	252
<i>Allemand</i> (Monf.) his Account of the Agitation of the Water at <i>Leyden</i> on the 1st of Nov. 1755	397
———— his Letter concerning an Earthquake felt in <i>Holland</i>	545
———— his Letter concerning the late Earthquakes at <i>Maestricht</i>	663
———— his Account of an Earthquake felt in divers Places of the <i>Netherlands</i> , on the 26th and 27th of Nov. 1755	512
<i>American Wasps Nest,</i> some Observations thereon	205
<i>Amersfort</i> (in the Province of <i>Utrecht</i>), Account of an Earthquake felt there on the 15th of Jan. 1756	513
<i>Amnii Liquor</i> contributes to nourish the Fœtus which swims therein	254
<i>Amputations,</i> Account of the Success of <i>Aparic</i> and <i>Fungus Vinosus</i> in the Healing of them	93, 264
———— D° of the Powder of <i>Lycoperdon</i>	38
———— the Use of the Powder of <i>Lycoperdon</i> in stopping the Blood after them	40
<i>Amsterdam,</i> Account of an Earthquake felt there	545
<i>Anacardium,</i> Varnish produced therefrom	872
<i>Animalcules, Microscopical,</i> produced from infusing of dried Millepedes and Cantharides in boiling Water	553
<i>Animals,</i> Account of Experiments on the Sensibility and Irritability of the several Parts of them	240
———— Account of Worms found in their Bodies	246
<i>Annual Motion of the Earth,</i> Essay concerning the Irregularities thereof	737
<i>Annuities on single Lives,</i> Table of their Values	892
<i>Anson</i> (Lord), Account of the Irregularities of the Tides in the <i>Thames</i> and <i>Medway</i> , communicated by him	523
<i>Antigua,</i> Account of the Agitation of the Sea there on the 1st of Nov. 1755	668
Vol. 49.	5 Z
<i>Antigua,</i>	

I N D E X.

<i>Antigua</i> , Account of the Impression upon a Stone dug up there	—	—	—	295
——— Mr. <i>Arthur Pond</i> his Description thereof	—	—	—	297
——— Account of the Quantity of Rain fallen there for Four Years	—	—	—	295
<i>Antioch</i> , its Latitude	—	—	—	252
<i>Antiquities</i> discovered at <i>Herculaneum</i>	109,	110,	112,	490
<i>Antilles of America</i> , Observations on the Currents of the Sea there	—	—	—	624
<i>Antonio</i> (Father, a Writer at the <i>Vatican</i>), his Artifice for unrolling the Manuscripts, which were dug out of the Ruins of an Edifice near <i>Herculaneum</i>	—	—	—	113
<i>Apogee of the Moon</i> , the Inequalities produced by its Position in the Precession of the Equinoxes, and in the Obliquity of the Ecliptic	—	—	—	722
<i>Arderon</i> (Mr. <i>Wm.</i>) Letter from him concerning the Agitation of the Water at <i>Hunston</i> and <i>Yarmouth</i> , in <i>Norfolk</i> , on the 1st of <i>Nov.</i> 1755	—	—	—	380
<i>Arm, Paralytic</i> , Cure thereof by Electricity	—	—	—	558
<i>Arteries</i> , some remarkable Experiments made upon them with the Powder of <i>Lycoperdon</i>	—	—	—	36, 93, 264
<i>Arzila</i> , Account of the Earthquake there on the 1st of <i>Nov.</i> 1755	—	—	—	429
<i>Asa Fætida</i> , how produced	—	—	—	253
<i>Ascanius</i> (<i>Peter</i> , M. D.) his Letter concerning a Mountain of Iron Ore in <i>Sweden</i>	—	—	—	30
<i>Ascent of Vapours</i> , concerning the Cause thereof	—	—	—	124
<i>Asia</i> , Account of some new Astronomical and Physical Observations made there	—	—	—	251
<i>Astronomical Observations</i> made in <i>Asia</i> , a short Account of them	—	—	—	251
——— Advantages of taking the Mean of a Number of them	—	—	—	82
<i>Axis of the Earth</i> , its Nutation	—	—	—	704
B.				
<i>Bagdad</i> , its Latitude	—	—	—	252
<i>Baily</i> (Mr. <i>Wm.</i>) his Method of encreasing the Force of the Fire-Engine	—	—	—	312

I N D E X.

<i>Baker</i> (Mr. <i>Henry</i>) Letter to him concerning the Agitation of the Waters on the 1st of <i>Nov.</i> 1755	— 380
———— Account of the Books and antient Writings dug out of the Ruins of an Edifice near <i>Herculeum</i> , communicated by him	— 112
———— Observations on the Earthquake at <i>Lisbon</i> on the 1st of <i>Nov.</i> 1755, communicated by him	413
———— an Account of some <i>Fungite</i> , and other curious coralloid fossile Bodies, communicated by him	513
———— his Supplement to an Account of a distempered Skin, published in N ^o 424 of these Transactions	— — — 21
———— Account of the Tumbling down of vast Heaps of Snow from the Mountains	— 796
<i>Barbary</i> , an Account of the Earthquakes that happened in that Country on the 1st and 18th of <i>Nov.</i> 1755	428, 431
<i>Barber</i> (Mr. <i>Thomas</i>) Letter from him concerning the Agitation of the Waters at <i>Yarmouth</i> on the 1st of <i>Nov.</i> 1755	— — — 380
<i>Barbosa</i> (Dr. <i>John</i>) his Observations on the Eclipse of the Moon	— — — 265
<i>Barker</i> (Tho. Esq;) his Letter concerning the Return of the Comet in 1757 or 1758	— — — 347
<i>Barometer</i> , the general Appearances thereof accounted for	139, 145
———— concerning the Cause of the Phænomena thereof	124
<i>Barren Strawberry</i> , Account of that Plant	— 834
<i>Barrington</i> (the Hon. Mr.) his Communication of a Letter concerning the Island of <i>Manilla</i>	— 458
<i>Base Rocket</i> , Account of that Plant	— 832
<i>Bastard Hellebore</i> , Account of that Plant	— 851
<i>Bastard Parsley</i> , purple flowered, Account of that Plant	821
<i>Bastard-stone Parsley</i> , D ^o	— — 822
<i>Bath</i> , in <i>England</i> , an Attempt to explain two <i>Roman</i> Inscriptions which were dug up there	— 285
<i>Baths</i> (at <i>Toplitz</i> , in <i>Bohemia</i>) Effects of the Earthquake, of the 1st of <i>Nov.</i> 1755, on them	— 395
	s Z 2 <i>Basil.</i>

I N D E X.

<i>Bazil, Wild,</i> Account of that Plant	838
<i>Bazin</i> (Monf.) Letter to him concerning the Earthquake at <i>Oporto</i> , 1 Nov. 1755	422
<i>Belcier</i> (Governor) his Lady, her Letter concerning an extraordinary Motion of the Water in the Lake <i>Ontario</i>	544
<i>Bell-flowers, Rigid-leaved,</i> Account of that Plant	815
Benefit of blowing Showers of fresh Air up thro' distilled Liquors	312
<i>Bergemoletto</i> , Account of some Houses there, which were intirely overwhelmed by Snow	796
<i>Berkshire</i> , Account of the Agitation of the Waters at <i>Reading</i> , in that County, 1 Nov. 1755	365, 367
<i>Betony, True Paul's,</i> Account of that Plant	807
<i>Bewick</i> (Mr. <i>Benjamin</i>) his Account of the Earthquake at <i>Cadiz</i> on the 1st of Nov. 1755	424
<i>Bezom, or Lowdutch Heath,</i> Account of that Plant	829
<i>Bilberries,</i> Account of that Plant	829
<i>Bills of Mortality,</i> Objections to them answered	888
<i>Birch</i> (<i>Thomas</i>) D. D. his Account of the Agitation of the Waters in <i>Peerless Pool</i> , in <i>Old street</i> , on the 1st of Nov. 1755	362
———— an Account of the Agitation of the Water at the <i>Hague</i> on the 1st of Nov. 1755, communicated by him	396
———— Letter to him concerning the Agitation of the Waters in <i>Scotland</i> and at <i>Hamburg</i>	550
———— Letter to him concerning the Earthquakes felt at <i>Brussels</i>	546
———— an Account of the Earthquakes of the 1st and 9th of Nov. 1755, as felt at <i>Neufchattel</i> , in <i>Switzerland</i> , communicated by him	436
———— an Account of Inoculation, given by Sir <i>Hans Sloane</i> , Bart. to Mr. <i>Ranby</i> , communicated by him	516
———— Letters to him concerning the surprising Agitation of the Waters on the 1st of Nov. 1755	351, 353, 361, 364
<i>Birch</i>	

I N D E X.

<i>Birch (Thomas) D. D.</i> Letter to him concerning some remarkable Polypes found in the Waters near <i>Brussels</i> , in <i>Flanders</i> — — —	248
———— Letter to him concerning the Sensibility and Irratibility of the several Parts of Animals —	240
———— Letter to him concerning the Toxicodendron of <i>Carolina</i> — — —	161
———— Letter to him containing an Account of Worms found in Animal Bodies —	246
———— Letter to him concerning an Earthquake felt at <i>Colen</i> , <i>Leige</i> , <i>Mastricht</i> , &c. —	893
———— his Translation of an Account of an Essay towards a Natural History of the <i>Adriatic</i> Sea —	585
———— Letter to him containing a Dissertation on a <i>Parthian</i> Coin — — —	593
———— Letter to him containing Remarks on the Stones in <i>Nassau</i> , <i>Treves</i> , and <i>Colen</i> , resembling the Giants Causey — — —	581
<i>Bistort</i> , the Greater, Account of that Plant —	830
<i>Bizerty</i> , in <i>Barbary</i> , extraordinary Currents on that Coast — — —	635
<i>Bladder</i> , Stone therein dissolvable by the <i>Carlsbad</i> Waters in <i>Bohemia</i> — — —	895
———— D ^o by medicated Urine — — —	900
<i>Blackberry-bearing Alder</i> , Account of that Plant —	819
<i>Blair (John) L. L. D.</i> his Account of the Agitation of the Waters at <i>Reading</i> , in <i>Berkshire</i> , on the 1st of Nov. 1755 — — —	367
———— Letter communicated by him concerning the Agitation of the Waters at <i>Swansey</i> on the 1st of Nov. 1755 — — —	379
<i>Bloodwort</i> , Account of that Plant —	827
<i>Bloody Dock</i> , D ^o — — —	827
<i>Bodies of Animals</i> , Account of Worms found in them —	246
<i>Boiling Water</i> , Observations on the Productions of Animalcules from Infusions therein — — —	553
<i>Books and ancient Writings</i> dug out of the Ruins of an Edifice near <i>Herculaneum</i> — — —	112
<i>Bonne</i>	

I N D E X.

<i>Bonne</i> (called also <i>Hipone</i>), in <i>Barbary</i> , extraordinary Currents there	638
<i>Bonnet</i> (Monf.) Letter from him concerning the Earthquakes at <i>Valais</i> , in <i>Switzerland</i>	511
<i>Borlase</i> (Wm.) A. M. his Letter concerning the Agitation of the Waters in <i>Cornwall</i> on the 1st of Nov. 1755	373
<i>Boston</i> , in <i>New England</i> , Account of an Earthquake felt there on the 18th of Nov. 1755	439
<i>Bowyer</i> (<i>John Windham</i>) Esq; an Account of the Sinking of a River at <i>Pontypool</i> , in <i>Monmouthshire</i> , communicated by him	547
Letter to him concerning the Earthquakes along the Coast of <i>England</i> from <i>Dover</i> to <i>Margate</i>	579
<i>Boy</i> , an Account of a remarkable Case of one, who had a considerable Part of his Intestines forced out by the Fall of a Cart	238
<i>Brackenridge</i> (Wm.) D. D. his Letter concerning the Method of constructing a Table for the Probability of Lives at <i>London</i>	167
a Table of the Values of Annuities according thereto	892
his Letter concerning the Number of People in <i>England</i>	268
his Letter concerning the present Increase of the People in <i>Britain</i> and <i>Ireland</i>	877
<i>Bradley</i> (<i>James</i>) D. D. Two Essays relating to Astronomy addressed to him	700
Letter to him concerning the Return of the Comet expected in 1757 or 1758	347
<i>Brady</i> (T.) M. D. his Account of the Earthquakes felt at <i>Brussels</i>	546
his Account of some remarkable Insects, of the Polype Kind, found in the Waters near <i>Brussels</i> , in <i>Flanders</i>	248
<i>Brander</i> (<i>Gustavus</i>) Esq; his Account of a remarkable Echinus	295
<i>Brander</i>	

I N D E X.

<i>Brander (Gustavus) Esq;</i> his Account of the Effects of Lightening at the <i>Danish Church</i> in <i>Wellclose-square</i>	298
<i>Breezes, Land and Sea</i> , how occasioned	— 146
<i>Brigue</i> , in <i>Valais</i> , an Account of a continued Succession of Earthquakes there	— — 616
<i>Brimstone-Hill</i> (in the Island of <i>Guadelupa</i>) Observations made upon it	— — — 564
<i>Brocklesby (Richard) M. D.</i> Account of the Agitation of the Water at <i>Kinsale</i> , in <i>Ireland</i> , on the 1st of <i>Nov.</i> 1755, communicated by him	— — 393
———— his Account of the Sensibility and Irrita- bility of the several Parts of Animals	— 240
<i>Brook Lime</i> , Account of that Plant	— 807
<i>Broom Rape</i> , D ^o	— — 838
<i>Brownrigg (Wm.) M. A.</i> his Thoughts on Dr. <i>Hales's</i> new Method of Distillation by the united Force of Air and Fire	— — — — 534
<i>Bruni (Dr. Jos.)</i> an Account received from him of some Houfes which were intirely overwhelmed with Snow	796
<i>Brussels</i> , in <i>Flanders</i> , Account of the Earthquake felt there	546
———— Account of some remarkable Insects, of the Po- lype Kind, found in the Waters near it	— 248
<i>Bullock (Rev. Mr.)</i> his Account of the Earthquake, <i>Nov.</i> 1, 1755, as felt in the Lead Mines in <i>Derbyshire</i>	398
<i>Burnett Rose</i> , Account of that Plant	— 834
<i>Burnet Saxifrage, Great</i> , D ^o	— — 824
<i>Burnet, Small</i> , D ^o	— — — 852
<i>Bushey Hawkweed, Narrow-leaved</i> , D ^o	— — 846
<i>Butter Burr</i> , D ^o	— — — 848
<i>Butter Fly Orches</i> , D ^o	— — — 850
———— <i>Satyrion</i> , D ^o	— — — — 849
<i>Byam (Rev. Mr. Francis)</i> his Account of an Impression of a Stone dug up at <i>Antigua</i> ; and of the Quantity of Rain fallen there for Four Years	— — 295
C.	
<i>Cadiz</i> , Account of the Earthquake there on the 1st of <i>Nov.</i> 1755	— — — 424, 427
<i>Calamint</i> ,	

I N D E X.

<i>Calamint, Field</i> , Account of that Plant	—	838
<i>Cancer</i> , of the Eyelids, Nose, and neighbouring Parts, Method of curing the same	— — —	186
<i>Canterbury Bells</i> , Account of that Plant	—	817
<i>Cantharides</i> , Observations of the Productions of Animal- cules by an Infusion of them in boiling Water	—	555
<i>Canton (John) M. A.</i> Letter to him, containing an Ac- count of the State of the Thermometer on the 8th and 9th of February 1755	— — —	43
<i>Carolina</i> , a Plant called Toxicodendron, of common Growth there, the same with that from whence the Japan Varnish is produced	— —	162
<i>Carlsbad</i> , in <i>Bohemia</i> , Account of the Waters there		895
<i>Case</i> of a Boy who had a considerable Part of his Intestines forced out by the Fall of a Cart	— —	238
— of a Child, an extraordinary one	—	34
<i>Cases</i> of Dropsies cured by Sweet Oil	— —	46
<i>Case</i> of a morbid Eye, a remarkable one	—	18
<i>Cashew Nut-tree</i> , Varnish produced therefrom	—	872
<i>Cassius, Mount</i> , its Latitude	— —	252
<i>Castro (Dr. De)</i> Part of Two Letters to him concerning the Earthquake at <i>Lisbon</i> on Nov. 1, 1755	—	409
<i>Castro Sarmiento (Jacob De) M. D.</i> an Observation of an Eclipse of the Moon communicated by him	—	265
<i>Cat-mint</i> , Account of that Plant	— —	837
<i>Catalogue</i> of Fifty Plants, from <i>Chelsea</i> Garden, for the Year 1754, presented to the <i>Royal Society</i> by Dr. <i>John</i> <i>Wilmer</i>	— — — —	78
— — — — D ^o for the Year 1755	—	607
<i>Cat (Monf. Le) M. D.</i> his Account of those malignant Fe- vers that raged at <i>Rouen</i> in the Years 1753 and 1754		49
<i>Cause of Exhalations, Winds, &c.</i> Letters concerning it		124
<i>Caylus (Count)</i> an ancient Method of Painting revived by him	— — — —	652
<i>Cerati (Monf.)</i> Letter to him concerning the Books and ancient Writings dug out of the Ruins of an Edifice near <i>Herculaneum</i>	— — —	112

I N D E X.

<i>Chambers</i> (Mr. <i>Charles</i>) his Account of the Earthquake at <i>Madeira</i> the 1st of <i>Nov.</i> 1755	—	—	435
<i>Charr Fish</i> , some Account thereof	—	—	210
<i>Chatham</i> , Account of the Irregularity of the Tides there, in <i>Feb.</i> 1756	—	—	523
<i>Chelsea Garden</i> , Catalogue of Fifty Plants therefrom			78, 607
<i>Chemical Experiments</i> concerning the Action of unslacked Lime on volatile alkaline Salts	—	—	222
<i>Chester</i> (Bishop) Letter to him concerning the Agitation of the Waters in <i>Cumberland</i>	—	—	381
<i>Chevalier</i> (<i>John</i>) his Observations, made at <i>Lisbon</i> , on the Eclipses of the Satellites of <i>Jupiter</i>	—	—	48
<i>Chevening</i> , in <i>Kent</i> , Account of the Agitation of the Wa- ter there <i>Nov.</i> 1, 1755	—	—	360
<i>Chickling Vetch</i> , Account of that Plant		—	843
<i>Chickweed</i> , Long-leaved, D ^o	—	—	832
<i>Child</i> (Mr. <i>Wm.</i>) his Letter to Mr. <i>James Pitford</i> , con- cerning the Effects of Lightning at <i>Darking</i> , in <i>Surry</i>			309
<i>Child</i> , an extraordinary Case of one	—	—	34
<i>Cinquefoil</i> , <i>Tormentil</i> , Account of that Plant	—		835
<i>Claret</i> , an Account of the Success of some Experiments of injecting it into the Abdomen after Tapping	—		485
<i>Climing Fumitory</i> , Account of that Plant	—		841
<i>Cockshead</i> , D ^o	—	—	843
<i>Coic</i> , near <i>Aleppo</i> , an Account of Fishes found in that River	—	—	447
<i>Coin</i> , <i>Parthian</i> , a Dissertation on one	—		593
<i>Colares</i> (about 20 Miles from <i>Lisbon</i>) Observations made there of the Earthquake <i>Nov.</i> 1, 1755	—		413
<i>Colen</i> , Account of an Earthquake felt there	—		893
— Remarks on Stones in that Territory, resembling those of the Giants Causey	—	—	581
<i>Golden</i> (<i>Cadwaladar</i>) Esq; Letter from him concerning the Earthquake felt at <i>New York</i> the 18th of <i>Nov.</i> 1755	—	—	443

I N D E X.

<i>Collinson</i> (Mr. <i>Peter</i>) Account of Copper-springs lately discovered in <i>Pensylvania</i> , communicated by him	648
———— Letter to him concerning a curious fleshy Coral-like Substance	449
———— Letter to him concerning the Earthquake felt in <i>New York</i> , Nov. 18, 1755	443
———— Letter to him concerning the Earthquake felt in <i>Pensylvania</i> , Nov. 18, 1755	444
———— Letter to him concerning Four undescribed Fishes of <i>Aleppo</i>	445
———— Letter concerning the Effects of Lightning at <i>Darking</i> , in <i>Surry</i>	309
———— Letter to him concerning some Microscopical Observations	553
———— Letter to him concerning a Mountain of Iron Ore in <i>Sweden</i>	30
———— Letter to him concerning the Charr-fish	210
<i>Colquhoun</i> (Sir <i>James</i>) his Account of the Agitation of the Water at <i>Loch Lommond</i> , Nov. 1, 1755	389
<i>Columbines</i> , Account of that Plant	836
<i>Comet</i> , Extract of a Letter concerning the Return of one in the Year 1757 or 1758	347
<i>Commissioners of the Excise</i> , Letter to them concerning the Earthquakes along the Coast of <i>England</i> from <i>Dover</i> to <i>Margate</i>	579
———— Letter to them concerning the Sinking of a River at <i>Pontypool</i>	547
<i>Common Salt</i> , Method of making it sooner, cheaper, and better	330
<i>Condamine</i> (Monsr. <i>La</i>) his Letter to Dr. <i>Matty</i>	622
<i>Configurations</i> of the smallest shining Particles of Snow, Method of observing them	644
<i>Considerations</i> on Two large Pieces of Lead, with <i>Roman</i> Inscriptions	686
<i>Constantinople</i> , Account of several Earthquakes lately felt there	115
———— Queries concerning it, and their Answers	96
<i>Copper-</i>	

I N D E X.

<i>Copper-springs</i> lately discovered in <i>Pensylvania</i>	—	648
<i>Coral-like Substance</i> , an Account of a curious fleshy one		449
<i>Coralline Moss</i> , Small, brown, Account of that Plant		858
<i>Coralloid fossile Bodies</i> , Account of some curious ones		513
<i>Coddled-Corn Violet</i> , Account of that Plant	—	817
<i>Cornwall</i> , Account of the Agitation of the Waters there		
Nov. 1, 1755	— — —	371
<i>Costa</i> (Mr. Emanuel Mendes De) his Translation, from the		
Latin, of a Letter concerning a Mountain of Iron Ore		
in Sweden	— — —	30
<i>Cotton Grass</i> , Account of that Plant	—	809
<i>Cough</i> , a short dry one, called the Husk, incident to young		
Bullocks, caused by Worms	— —	247
<i>Cowper</i> (Earl) Letter to him concerning the Agitation of		
the Waters near <i>Durham</i> , Nov. 1, 1755	—	385
<i>Cramon</i> (Mr.) his Account of the Benefit of Ventilators on		
board a Ship with 392 Slaves	— —	335
<i>Cranbrook</i> , in <i>Kent</i> , Account of the Agitation of the Wa-		
ters there, Nov. 1, 1755	— —	360
<i>Cranesbill</i> , <i>Dovesfoot</i> , Account of that Plant	—	841
— — — with jagged Leaves, D ^o	— —	840
— — — <i>Shining</i> or <i>Stone</i> , D ^o	—	ibid.
<i>Creeping Tormentil</i> , D ^o	— —	835
<i>Crocodile</i> , an Account of a particular Species thereof		639
<i>Crosswort</i> , Account of that Plant	—	853
<i>Crowfoot</i> , <i>Muskwood</i> , D ^o	— — —	831
<i>Crusius</i> (Lewis) D. D. Letter to him concerning the Agi-		
tation of the Waters near <i>Reading</i> , in <i>Berkshire</i> , Nov. 1,		
1755	— — —	365
— — — Letter to him concerning the Earthquake,		
as felt in the Lead Mines in <i>Derbyshire</i>	—	398
— — — an Account of the Earthquake at <i>Ma-</i>		
<i>deira</i> , Nov. 1, 1755, communicated by him	—	435
<i>Cuckow Flower</i> , Account of that Plant	—	839
— — — <i>Hairy</i> , D ^o	— —	840
<i>Cumberland</i> , Account of the Agitation of the Waters there		
Nov. 1, 1755	— — —	381

I N D E X.

<i>Cuneo</i> (the Intendant of that Province) the Account taken by him of some Houses which were overwhelmed	796
<i>Currents of the Sea</i> , Observations on those near the Antilles of <i>America</i>	624
————— Observations on those in the <i>Mediterranean</i>	634
<i>Cyperus Grass</i> , Account of that Plant	808
D.
